CUSHION

Ultimate Shine & Control

The criss-cross pattern around the edge creates volume while the center channel of natural fiber bristles creates airflow for faster blowdries and ultimate shine.

TIPS FOR USE

1

Use the outer ring of bristles to lock into the root while blowdrying curly hair to create volume and smoothness.

2

Use the outer ring of bristles on dry hair to lock into root area, teasing to create volume.

3

Use the outer ring of bristles to refine and control hair like you would a comb.

4

Push down into the center channel of natural boar bristles with your thumb as you brush to create tension and shine.

5

Blowdry faster through better airflow with our patented configuration and the center channel of natural fiber bristles.

6

Detangle and stretch the hair with nylon bristles that penetrate to the scalp.

CURIOUS: CUSHION BRUSH

The Cushion Brushes criss-cross pattern around the edge creates volume while the center channel of natural fiber bristles creates airflow for faster blowdries and ultimate shine.

ULTIMATE SHINE & CONTROL

Volume where you want it.
Tension where you need it.

100% natural fiber bristles

Weight: 3.6 oz (102 grams)

Natural fiber bristles keep the cuticle smooth for maximum shine.

Natural fiber bristles absorb and redistribute hair oils from the root to smooth the hair.

Nylon bristles penetrate for detangling.

Ceramic ionic barrel promotes shine and faster blowdries.

Patented configuration of nylon and natural fiber bristles gives better control, with edge bristles for fine details.

Criss-cross pattern of the outer ring gives height at the base to create volume.

Center channel creates movement and airflow for faster blowdries.

Easy to hold, lightweight design with a soft-touch grip and a seamless handle.

ROUND

Extreme Control & Volume

The combination of natural fiber bristles and ceramic ionic barrel promotes shine and faster blowdries. Our patented configuration creates tension and control to enhance styling and finishing techniques.

TIPS FOR USE

- 1 Create perfect curl formation by turning the brush in your hand as you blowdry.
- 2 Use the high and low bristles to grip the hair as you blowdry for bouncy finished curls.
- 3 Create a dimensional blowout and effortless fullness with our patented bristle configuration.
- 4 Control any hair length with the unique natural and boar bristle configuration.
- 5 Easily keep tension or hold other items with our lightweight design and rubber grip handle.

CURIOUS: ROUND BRUSH

The Round Brushes combination of natural fiber bristles and ceramic ionic barrel promotes shine and faster blowdries. Our patented configuration creates tension and control to enhance styling and finishing techniques.

EXTREME CONTROL & VOLUME

Volume where you want it.
Tension where you need it.

100% natural fiber bristles

Weight (Medium): 4.2 oz (120 grams)

Weight (Extra Large): 5.6 oz (160 grams)

Patented configuration of nylon and natural fiber bristles gives better control.

Specialized fiber channel design directs the hair to create movement.

Natural fiber bristles keep the cuticle smooth for maximum shine.

Natural fiber bristles absorb and redistribute hair oils from the root to smooth the hair.

Nylon bristles penetrate for detangling.

Ceramic ionic barrel promotes shine and faster blowdries.

Center channel creates movement and airflow for faster blowdries.

Easy to hold, lightweight design with a soft-touch grip and a seamless handle.

CURIOUS BRUSHES CARE & MAINTENANCE

To get the most out of the life of your brush it's important to frequently remove dead hair, skin cells and grease. Dry clean your brush frequently by loosening any hair strands with a wide-tooth comb.

Disinfect your Nick Stenson CURIOUS brushes with one of these three methods:

METHOD: 1

Dip a comb in soapy, lukewarm water. Hold the brush with the pad pointing downwards and brush the bristles. Shake the brush to remove excess water and place the brush to dry with the handle pointing upwards.

METHOD: 2

Use a spray-on disinfectant on the surface and leave to dry.

METHOD: 3

Use an Ultrasonic cleaning device.

Nick Stenson CURIOUS brushes should never be dipped or soaked in Barbicide liquid for cleaning. Natural boar fiber behaves in similar ways as human hair and therefore will absorb, dissipate and interact with liquids and chemicals, much like our hair does. Barbicide will cause damage to natural fiber, especially if left in the liquid for long periods of time, because it absorbs the chemical liquid.
